

Certificate

Vlad-Cristian Cozma

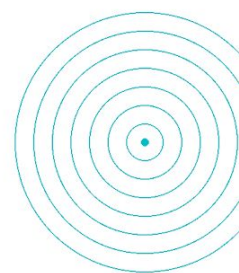

graduated from the course

AI Engineer

held by Software Development Academy
(through S.C. FORGE OF TALENTS SRL, tax code RO38957804)
from 30.09.2025 to 29.05.2026 in the form of workshops

Register entry no: RO/3223/10/2026

For certificate verification, contact suport@sdacademy.ro

Bucharest,
29.07.2026

Andrei Dumitraşcu Country
Manager Romania

Scope of Training

Total: 539 hours

Trainee's Attendance: 96.08%

Class Subject	Topics	Number of hours
Get ready to become an AI Engineer	- History of computers, Web, and AI - Infrastructure setup for programming - Getting started with Python	33
Programming Basics in Python	- Data Types and Structures - Control Flow and Logic - Functions - Built-in features - Clean Code - Git command line basics	121
Data processing and AI/ML models in sklearn	- Numerical and mathematical operations with Numpy - Data processing with Pandas - Data visualisation with Matplotlib and Seaborn - Exploratory Data Analysis - Classical AI/ML models using sklearn (supervised learning) - Introduction to Artificial Neural Networks in Keras	165
Deep Learning with Keras, TF and PT	- Custom model building in Keras - Working with pre-trained models using Keras Applications - Creating models from scratch with Tensorflow - Creating models from scratch with PyTorch	88
Managing AI/ML pipelines and deploying systems	- Model tracking with MLflow - Continuous integration & deployment (CI/CD) for AI systems - Production Code Python - Model packaging; Containerization using Docker	132

Receiving the certificate is equivalent to achieving minimum 80% attendance and obtaining minimum 80% of each test during the training.
